2 machine running Xcode 4.2.1 The problem is anything that I try and install I have to rely on autoconf.. The pile of error and warning messages left me puzzled at first: checking for working aclocal-1.

1. [install aclocal](#)
2. [install aclocal centos](#)
3. [install aclocal-1.15](#)

Hence, I needed to and install XCode 3 from the Leopard DVD. Contextual tabs are special tabs in the that are not visible all the time -- they only make an appearance when you are working with a particular slide object which can be edited using special options.. 4 Checking for working automake-1.4 Some more Then I found out that XCode is not automatically updated during the 10.

install aclocal

install aclocal, install aclocal mac, install aclocal centos, install aclocal-1.14, install aclocal-1.15, install aclocal redhat, install aclocal windows, install aclocal kali linux, install aclocal cygwin, install aclocal ubuntu 14 [Adobe Reader For Mac Os X 10.12.6](#)

In contrast to the problem described in this one was directly related to the OS X 10.. 4 -> 10.5 installation The MacPorts Project is an open-source community initiative to design an easy-to-use system for compiling, installing, and upgrading either command-line, X11 or Aqua based open-source software on the Mac OS X operating system.
