This fluid handling industry company supplies the majority of global manufacturers. The fluid handling market is characterized by the need of accuracy and precision in different industrial sectors: pharmaceutical industry, food industry, chemical industry and others. Some of the most important functions of the fluid handling market are to control the flow of fluid, mix the fluids, transport the fluids and others. The main product types of the Cepex are valves, manifolds, fittings, pumps, cylinders and flow regulators. This market is represented by international companies, such as Bosch, Siemens, Mitsubishi, GE, Dorman, Brooks Rand, and others. This market is characterized by the need of accuracy and precision in the different industrial sectors: pharmaceutical industry, food industry, chemical industry and others. Cepex competences: Cepex is the European leader in the fluid handling market. This fluid handling market company supplies more than 55% of the global market. Cepex specializes in hydraulic and pneumatic valves, manifolds, fittings, pumps, and cylinders as well as flow regulators. Cepex has its own manufacturing facilities located in Amstelveen, France, United Kingdom, Poland, Romania, India and Germany. The main markets of Cepex are North America, Europe, Middle East and Africa, and Asia-Pacific. The Cepex market is characterized by a high need of accuracy and precision and different industrial sectors: pharmaceutical industry, food industry, chemical industry and others. The valves and fittings, manifolds, pumps and cylinders segment is the largest and most competitive market. The manifold segment is expected to have a double-digit growth in the years to come. The demand for these products in the chemical and food industries will increase because these industries are characterized by the need of accurate and precise applications. In this market, the flow regulators are the fastest growing segment. The growth of this market is characterized by the high demand of accuracy and precision in different industrial sectors, such as pharmaceutical industry, food industry, chemical industry and others. The growth of the market will be due to the globalization of the market. The globalization is a key factor in the fluid handling market growth, as it allows the companies to meet the growing demand of the market for the products. In addition, the need of accuracy and precision in the pharmaceutical and chemical industry is increasing. Some of the key customers for the Cepex market are pharmaceutical industry, food industry, 82157476af
